

PROJECT MANAGEMENT SIMULATION WORKSHOP

PM50.10

The application of knowledge is a key success factor to learning. This three day version of the PM Simulation Workshop goes beyond the traditional project management class starting with a review of the TenStep® Project Management methodology. The students then demonstrate their knowledge by managing a project from beginning to end with a software-based project simulation package. This approach reinforces the concepts and principles learned for effective project management. As a result, the students are more prepared to apply the methodology to real life situations. Grades are compiled through quizzes and project simulation scores.

Upon completion of this course and achieving a passing score, each student will receive the TenStep Project Manager (TSPM) certification.

PREREQUISITES (DOCUMENTED)

- TenStep Preparation for Success class (PM00.00)
- Five (5) years of industry experience
- Three (3) years working on projects
- Minimum One (1) year in a leadership position on a project

-OR-

- Current PMP Certification
